This unit is constructed from a new (single trip) 20ft high cube Corten steel container with exterior painted dark charcoal. It comes fully lined and insulated with smart plank anti-bacterial PVC timber look flooring, 12mm ply interior walls painted in environmentally friendly low VOC paint, LED recessed down-lights, double glazed aluminium joinery.

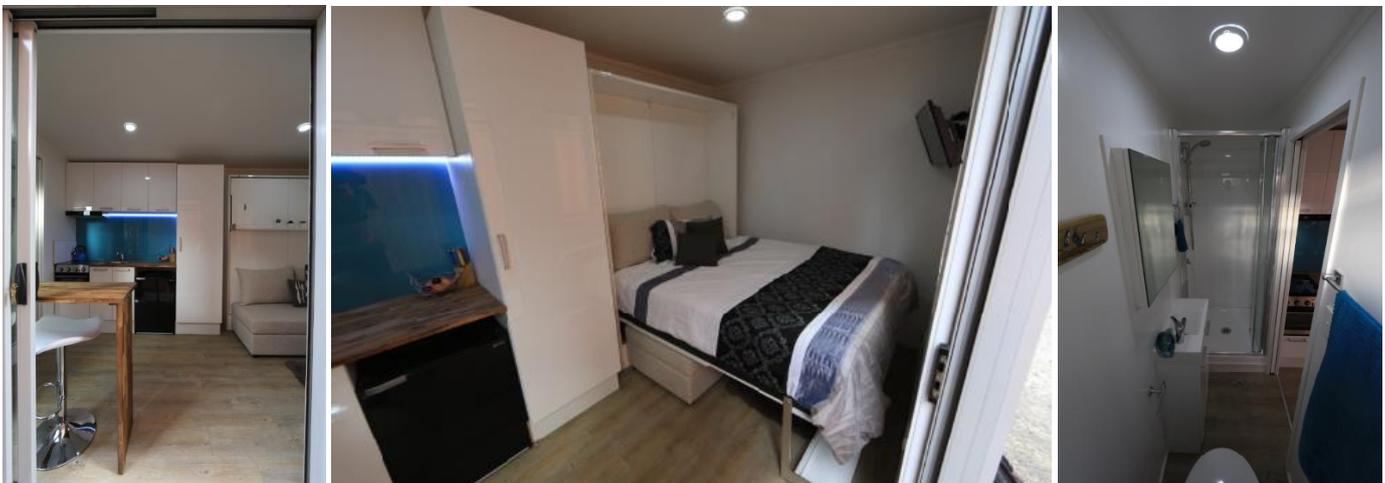

Designed to operate “off-the-grid” where no power, water or waste connections are available.

Note: Ability to provide enough power and water will depend on your site conditions and usage requirements.

- 20' HQ single trip container fitted out in Auckland NZ
- Double glazed aluminium windows and doors
- LED lighting, 12v plugs throughout & USB port. 1x double 240v plug for low draw appliances
